Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 May 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

1. Acknowledgment is made of applicant's claim for foreign priority under 35

U.S.C. 119(a)-(d). ***Reissue Applications***

2. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed. Applicant filed new claims 45-50 subsequent to the declaration of November 28, 2005.

Claims 22-31 and 45-50 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

3. Claims 48-50 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Pannu v. Storz Instruments Inc.*, 258 F.3d 1366, 59 USPQ2d 1597 (Fed. Cir. 2001); *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not

Art Unit: 1722

present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to claim subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope of claim subject matter surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

Claims 22-31 and 45-47 contain the phrase "said shell holders being shaped to be supported by two mold carriers made in the form of enveloping structures movable one with respect to the other" and contain the shell holder as a positive structural limitation in the claim; therefore, claims 22-31 and 45-47 contain the implicit limitation of the shape of the shell holders as set out in the decision by the Board of Patent Appeals and Interferences in parent application 09/553,413 and do not involve recapture.

Claims 48-50 recite the mold shell assembly without positively claiming the shell holders or the mold carriers in the form of enveloping structures. Applicant attempts to overcome a recapture rejection by using the following phrase "said mold shells being configured to be supported by mold carriers made in the form of enveloping structures via interposed mold shell holders, said mold shell holders being shaped to be supported by said mold carriers in the form of enveloping structures". The original patent claim contained the element "a shell which is provided with a half-impression of the container to be obtained and which can be removably fastened to its shell holder by quick-fixing means, the shell and shell holder being in complementary shapes in order to be in at

Art Unit: 1722

least partial mutual thermal-conduction". The explicit amendment to the mold carriers and the implicit amendment to the shell holders of claim 1 of Patent 5,968,560 did not extend to the shape of the shell. It appears unlikely that applicant intended to further define the shape of the shell in the amendment of the Patent –560 by amending the mold carriers which are made in the form of enveloping structures. The language in the claim regarding the complimentary shape of the shell and shell holders was merely for the purpose of being in at least partial mutual thermal-conduction. The Board must make such a determination as to the implicit modification of the shape of the shell via the implicit modification an interposing shell holder, as the previous decision did not specifically reference shape of the shells being modified during prosecution of the Patent –560.

Interview

4. The interview summary dated 5/8/2006 contains a typographical error. Claims 32-44 were canceled and should not have been listed in the summary of the interview.

Response to Arguments

5. Applicant's arguments filed May 2, 2006 have been fully considered but they are not persuasive.

The arguments about the implicit limitation imposed upon the mold shells by the Patent claim amendment of the mold carriers, which are made in the form of enveloping structures, are not convincing. The examiner's reasoning appears within the rejection in paragraph 3 above.

The recapture rejection has been withdrawn with respect to claims 22-31 and 45-47 based upon the Board's reasoning in the decision in application 09/553,413.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
